

OPTIMIZE YOUR ORACLE NETSUITE ERP WITH SHIPCONSOLE SAAS

“ShipConsole has dramatically improved productivity by providing a simplified single user interface which integrates with our carriers and streamlines Oracle Shipping Execution. Our shipping departments rely heavily on this important tool which not only speeds up our process, but provides better reporting and tracking capabilities than existed prior to ShipConsole.”

James Barron
Sr. Systems Analyst, Hologic, Inc.

Mission

To optimize and simplify shipping and logistics at an affordable price.

ShipConsole's NetSuite Shipping Software is a cloud based, all-in-one shipping software. It is suitable for any business that wants to integrate NetSuite with parcel carrier systems like UPS, FedEx, DHL, TNT and USPS, and various LTL carriers. It optimizes multi-carrier online shipping, label printing, reporting and shipment tracking with instantaneous access to proof-of-delivery documentation. It also includes features like rate shopping, international shipping with customs documentation, hazmat & dangerous goods support, and advanced analytics & reporting. ShipConsole is widely used by Oracle NetSuite customers looking to enhance their shipping experience.

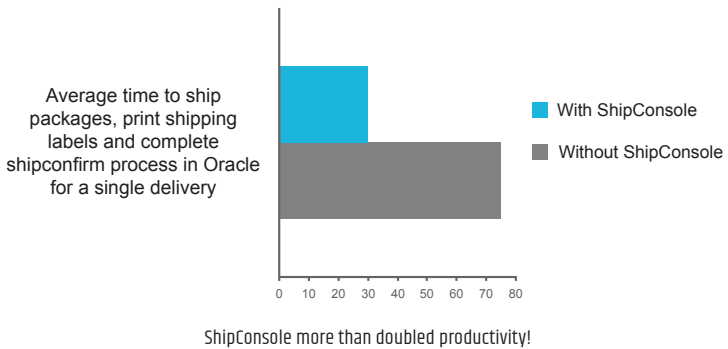

The ShipConsole Solution

- Easily create shipments for orders and fulfillments in Oracle NetSuite and ship via parcel and LTL carriers
- Capture published and negotiated freight costs for both parcel and LTL carriers and automatically save them back to NetSuite
- Update fulfillment status to “shipped” in NetSuite with the click of a single button
- Ship Non-Oracle Sales Orders
- Automatically send shipment notifications to customers in a variety of formats
- Access shipment status and proof-of-delivery documentation instantly
- Print NetSuite shipping documents and carrier labels from one screen
- Consolidate multiple fulfillments into a single shipment
- Audit freight invoices to identify billing errors
- Reduce transportation spend with Rate Shopping
- Verify addresses to eliminate delivery delays and additional service fees
- Screen for Denied Parties
- File export information electronically using AES/ACE
- Print customs documentation or use paperless invoicing
- Make better decisions using reports and analytics
