

OPTIMIZE YOUR YOUR ORACLE NETSUITE SHIPPING WITH SHIPCONSOLE

Why Choose ShipConsole for Oracle NetSuite?

ShipConsole is the premier shipping solution for NetSuite, offering a comprehensive suite of features to optimize and simplify your shipping processes.

Here's why ShipConsole stands out:

- Multi-Carrier, Multi-Modal Shipping including LTL/FTL carriers
- Freight Quoting & Rate Shopping
- Batch shipping
- Packing slip generation
- International Shipping with paperless invoicing
- Hazmat Documentation
- Serial/Lot Control Validation
- Shipping Analytics
- Shipping Document Repository
- Custom Business Rules

Our Representative Customers

"ShipConsole has vastly improved the efficiency of our shipping operation. It has provided us a single point of shipping for a variety of air, ground, and LTL carriers. It's seamless integration with Oracle E-Business Suite has also made it easier for our shipping team to get our orders out of the door."

MATTHEW RAYMO,
Business Systems Analyst

THE SHIPCONSOLE SOLUTION

Natively integrated with Oracle NetSuite

ShipConsole Integrates Oracle NetSuite with an extensive network of Parcel/Freight Carriers.

Advanced Shipping Capabilities

More than Multi-Carrier shipping, ShipConsole offers employee and mailroom shipping, inbound package tracking, and E-sign BOL.

Flexible and Scalable

Flexibility to add custom business rules, scalable for growth and expansion to additional warehouse locations

BENEFITS OF SHIPCONSOLE

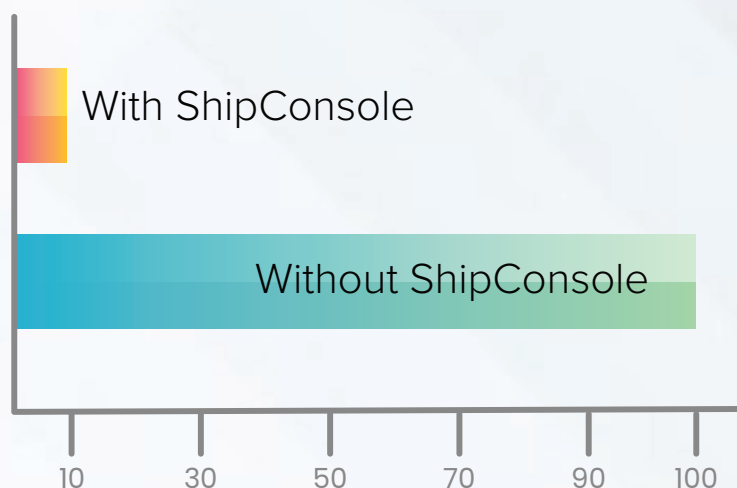

- Increase shipping productivity with one click shipping process
- Simplify Multi-Carrier, Multi-Modal shipping with single platform
- Reduce transportation spend with Rate Shopping
- Enhance Customer Loyalty with integrated tracking and shipment notifications
- Simplify International Shipping with paperless invoicing, customs documentation & ACE Integration
- Drive efficiency and cost savings with actionable analytics
- Avoid delivery delays and additional fees with Address Validation
- Identify billing errors using the Freight Audit Report

SIMPLIFY INTERNATIONAL SHIPPING

ShipConsole seamlessly integrates with Oracle NetSuite Shipping and automatically pulls all the commodity information including harmonized codes which eliminates the need to manually key in all the shipping information into carrier systems.
